Ul. Siostrzana 17, Wrocław

MY PROFILE

My three years of experience as a graphic and web designer has honed my CSS, HTML and JS skills, as well as my knowledge of mobile and responsive design. In my projects, I put a lot of attention to UI and CSS animations to bring the best UX possible. While working as a freelancer for wide range of B2B and B2C clients I realize how important details are. My keen attention to details and problem-solving skills at hand are what separates me from other candidates with similar qualifications.
