## PROFILE

I am an experienced graphic designer, web designer, and web developer well skilled in areas of animation and interactive graphics such as mailings. Thanks to the knowledge that I gain during my education in Art School, I can easily combine colors, fonts, and bold ideas into the beautiful modern design. I had pleasure working with different sort of business from corporations and small businesses to individual clients. Since it never ends up only on one commission, I can say I do understand needs of the business and tasks that were entrusted to me. Although, I know a lot in this matter I am aware of continued development in the field of design, coding, and animation. That is why I am constantly learning to advance in this area.
